

Hi, my name is Don Broom, I am announcing my intent to run for County Commissioner district 3 seat in Moffat County.

I Have lived in Moffat County for 18 years, I am the general Manager of Sombrero Ranches located here in Moffat County.

Sombrero Ranches is a horse company that owns about 900 horses. Sombrero leases horses to kid camps, dude ranches, movies and riding stables throughout the United States. Sombrero is also known for the great American horse drive here in Moffat County.

With my back ground dealing with the employees, customers and day to day operations I Have something to offer. I am a people person in the people business who knows how to communicate, listen and work well with others.

As a community, we better be vigilant about our economy, for right now coal is a big part of Moffat County. Government regulations, Environment protection agency's and Wild Earth Guardians aren't going anywhere. We need to encourage and help new businesses and support the ones that we have.

I have been exposed to budgeting, that is something that will never go away. We need to find ways to conduct county business more efficiently so that tax dollars are spent wisely without eliminating jobs.

Agriculture is still a big part of Moffat County, despite the hard times economically. Farmers and ranchers are still working away to succeed and determined not to surrender, clinging to the way of life that is their heritage. Dealing with Environmental protection agency and the Department of Interior for implementing regulations. "Moffat County don't forget about the agriculture people, 4-H, county fair and rodeos.

Private entities or government can accomplish nothing without the support of others on their team. Communicating with other county officials will help get things done and provide knowledgeable leadership. Citizens depend on county government more than ever before, which make it important that dedicated people are in county office.

I believe building coalitions with other commissioners, all other county and city officials, State legislators and leaders of groups among the public. "You stay in touch with the external world "

I am not a stranger to other government entities, I have dealt with the Forest Service, BLM, Division of Parks and Wildlife, Department of Interior, City of Steamboat and the City of Phoenix Arizona.

As your county commissioner, I will separate my emotions from my responsibilities and be a public-minded commissioner with concern for the full spectrum of public issues. Make our county a place where people succeed, have opportunity and seniors participate as vibrant members of the community.
